

# Maximum Attack

April 2011

Dear Member,

Unfortunately my second attempt at the newsletter won't be such a bumper edition. Please, if you are competing, send me some words and pictures for inclusion in the newsletter to tell other WMC members how you are getting on. It doesn't have to be much, and a few pictures speak a thousand words!

### SNETTERTON 300 – 16-17<sup>th</sup> April

A few weekends back, 3 of the circuit racing members made the long trek to Snetterton to try out the new circuit layout there. Gone is the huge back straight, and it has been replaced with a large infield section of complex and technical corners! The two Davies brothers, both racing their respective BMWs (Andy in his E36 M3 and Allan in his E30 M3) would be racing in the Classic Touring Car Championships Pre 93 Series, and Neil Philpotts, in the Starion was entered in the Classic Thunder race.

During Qualifying, Allan had a few issues with his car, but put the car a respectable 6<sup>th</sup> on the grid. Andy left it right till the last lap in his E36, and took the pole position with seconds to spare in the session.

Andy made the most of his pole position, and screamed off the line in to a lead he would hold all race – holding off the attentions of another E36 M3, and last years Champion in his E30 M3. Allan meanwhile made a couple of places and finished a respectable 4<sup>th</sup> overall.

Neil, in the Classic Thunder race, thinking the tight and twisty infield would take the Starions Power advantage away, put the Starion 3<sup>rd</sup> on the Grid – behind an ex-Bathurst Ford Falcon, and Joss Ronchetti's Lotus Sunbeam.

1<sup>st</sup> race (Classic Thunder was a double header) Neil made good his start, and used the power of the Starion to get in to 2<sup>nd</sup> place for the first corner – the position he was to hold through out this race, and the next. Unfortunately the power of the Falcon was a little too much for the Starion to cope with, and he had 2 solid 2<sup>nd</sup> overalls – 2 first in class positions.

Neil's in-car footage from the race can be viewed [here](#).
